1. COLOR BLIND. NEGLECTED CHALLENGE OF BUSINESS

by Arlene Evans

"Innumerable Web sites used in business are just mush to me," said Jim Doane. He is one of the two in one hundred males who is severely affected by colorblindness.

Web developer Ed Nolan is one of the 1:12 males affected by CVD. Although not as severely affected as Doane, he remembers coloring a picture of a boy green when he was in elementary school. As a Web developer, Nolan works with colors every day, which he does numerically.

"My colorblindness didn't bother me much on the job until the mid '80s when people started getting color copiers," Doane said.

<D-----ParaReviews--Reviews on Amazon and B&N wanted -----<

REVIEWS SELL BOOKS. Reviews make a book stand out. We can help each
other by posting (five star) reviews at Amazon.com, B&N.com and other web
sites.

IF YOU WOULD LIKE TO REVIEW BOOKS in your area of interest/expertise,
contact the listing publisher directly with your Postal address. Do not send
your request to Para Publishing. Please award the book at least four stars or
decline to review it. A review with fewer stars is harmful to sales. The book you
receive is yours to keep.

IF YOU WANT YOUR BOOK REVIEWED on Amazon.com, B&N.com, etc, list it
here in Publishing Poynters Marketplace (no charge). You must be willing to
send a book and promotional materials (review-book package) to readers of

Publishing Poynters Marketplace who contact you. Make sure the book is already listed at Amazon.com.

Just send your request and description to DanPoynter@ParaPublishing.com. Draft your request so that I do not have to edit it. Make it SHORT (100 words max), no italics or bold type. Just describe the book in a few words; don't send a lengthy review of it. Lengthy submissions will be returned for rewriting or ruthlessly cut. Reviewers only need enough information to see if they have expertise and an interest in your category. Supply full contact information including your email address. Write the draft as it should appear so that I do not have to do more than Copy\Paste. Put "Review Wanted" in the subject line.

14. We know that the atomic bombs delivered the WW II victory over Japan. Few realize that actually two were required, as surrender came only after exploding the second one. WHAT IF THE ATOMIC BOMBS FAILED TO EXPLODE?

X-DAY presents that scenario to the reader. The author presents American offensive and Japanese defensive operational plans for the Japanese Home Island invasion. Less than 500 people in the world knew about atomic bomb theory. The rest of the world knew the island-hopping across the Pacific would end at Japan's doorstep. The numerous historical interactions taken to that intended conflict are presented, including peace efforts, inter-service rivalries, and modern weapon technologies are presented. To the reader's benefit, they are in chronological order to understand complex, unfolding events. The end result is based on the operational plans other events that occurred. Not only was this a war of combatants, but also several political interactions ascending to a much different world today.
